Fiche

## La symétrie

1 Entoure les paires qui sont symétriques.

A collection of 18 pairs of 5x5 grids, each with a vertical dashed line of symmetry. The pairs are arranged in three rows of six. Each grid contains various geometric shapes and patterns.

- Row 1:
  - Pair 1: Grids with stars, circles, triangles, and squares.
  - Pair 2: Grids with diamonds, circles, triangles, and crosses.
  - Pair 3: Grids with a checkerboard pattern.
  - Pair 4: Grids with dots.
  - Pair 5: Grids with stars, triangles, squares, and circles.
  - Pair 6: Grids with a checkerboard pattern.
- Row 2:
  - Pair 1: Grids with dots.
  - Pair 2: Grids with a staircase-like black pattern.
  - Pair 3: Grids with stars, triangles, squares, and circles.
  - Pair 4: Grids with a checkerboard pattern.
- Row 3:
  - Pair 1: Grids with dots.
  - Pair 2: Grids with a checkerboard pattern.
  - Pair 3: Grids with stars, diamonds, crosses, circles, and triangles.
  - Pair 4: Grids with a large black shape.
